

David Cherry w/Mercy Ships (West Africa)

David is one of two missionaries who were at Crossroads Fellowship when it was begun in 1988. He became one of our missionaries with YWAM working with students, but when Mercy Ships was spun out of YWAM David felt called to leave with this new ministry. He has served in various roles but typically is in the training area. He currently reports to the Captain and oversees the operations of the ship's engines, generators, plumbing, electrical and navigational equipment. His work projects also include oversight of the Deck Department which is for maintenance and upkeep with loading and unloading supplies and equipment. This along with the record keeping for the two departments helps to keep the ship effective and equipped for the work at hand. David has also trained many nationals in various community development projects that often accompany a Mercy Ship's 'stay' within a country for 4 to 6 months.

Mercy Ships goes to the "poorest of the poor" nations to provide free medical care, community development and share the love and truth of the Lord Jesus Christ. David serves on the Africa Mercy, the newest ship, to do ministry mostly in West Africa. David's department also provides construction, well drilling, sanitation and agricultural assistance to these countries.
